

The “*savings*” from using non-genuine parts *can be very expensive*

Keep it genuine Fontaine
Make sure the Fontaine logo and certification emblem are on the box and the Fontaine brand is on the Jaw & Wedge before you install your parts!

Non-genuine components do not have the Fontaine brand on the box or parts. Failures caused by their “pressed-in” studs falling out can be dangerous.

Using non-genuine private label parts...

- Voids Fontaine Warranty/Liability
 - Increases likelihood of durability issues and failure
- Buy only genuine parts built and backed by Fontaine®**
