Fontaine Ultra HR

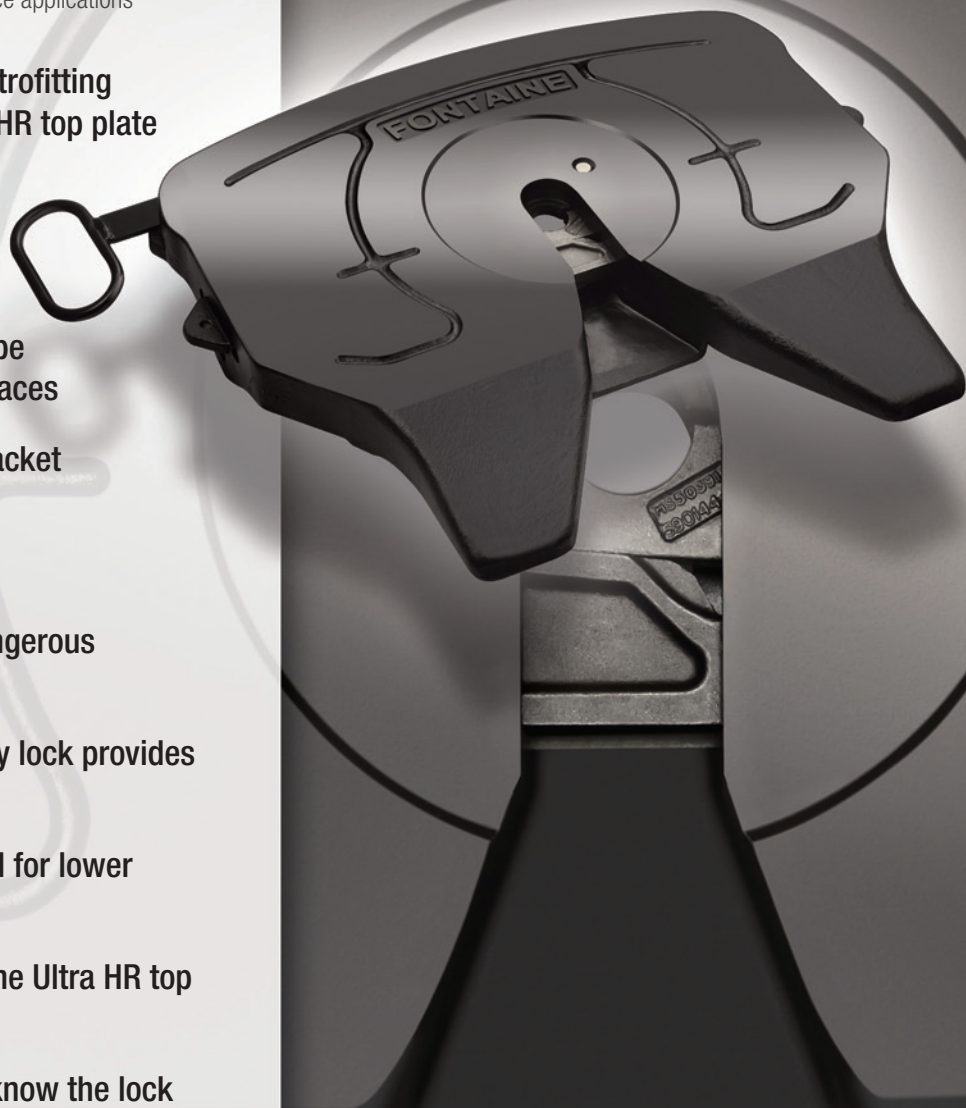

Retrofit with class

55,000 lb vertical load

150,000 lb drawbar pull rating

Rated for on-highway use in standard to severe service applications

- Fontaine Parts Connection is now retrofitting competitive products with the Ultra HR top plate
- Now customers can have the benefit of Fontaine technology installed on existing brackets
- Cast steel top plate is similar in shape to the Holland FW35 top plate it replaces
- Fits existing Holland FW35 lower bracket assemblies
- No adapters are needed
- Patented Fontaine lock prevents dangerous high hitching
- Patent-pending automatic secondary lock provides added safety and security
- Simple lock design is easy to rebuild for lower maintenance costs
- Optional inserts are available to fit the Ultra HR top plate onto Fontaine brackets
- Visual lock indicator lets the driver know the lock status at a glance
- Now everyone can run with the advanced safety features and lock technology offered by Fontaine Fifth Wheel
